

Belize Beach front Property, in Surfside

Agent: Chris Swanepoel

Property Information for ID #883 - US \$245,000

Looking to own a piece of Prime Real Estate in Maya Beach, the best location in the Caribbean?

This large Surfside beach lot measures 75 linear feet on the beach and is 217 feet deep. It has been selectively cleared to keep the mature trees on the property. The parcel is high and dry, would not require filling but can benefit from being levelled out.

The properties on either side of this lot have been developed, so there will be no surprises as to what goes up next to you. This can also be used to your advantage when designing your home for optimal privacy.
